Java Developer

Name: Thimmeswarnaidu M   **Phone No:**9704884852   **Email:**Thimmeswarnaidu1107@gmail.com

Career Objective:

Challenging career opportunities that will best utilize me acquire skills to provide professional growth and contribute to the success of an organization. Ready to work in a fast changing and challenging environment with the utmost dedication.

Educational Qualification:

Degree	Name of Institution	Year of Passing	Percentage/CGPA
B. Tech (ECE)	Ananthalakshmi Institute of Technology and Science Anantapur.	2023	75%
Intermediate (MPC)	NARAYANA Jr. College	2019	95%
SSC	ST MARY'S High School	2017	7.7

Certification Courses:

Completed Professional JAVA FULL STACK WEB DEVELOPMENT, HTML5, CSS & MYSQL. courses in a reputed Institute **PANKAJ SIR ACADEMY** Bengaluru from JULY 2023 to DECEMBER 2023.

CSS3: https://drive.google.com/file/d/1AFWAhJrcnaHGHnRHR-9faZa1EYmogt_G/view

HTML5: https://drive.google.com/file/d/1AEJHFqizBDvIfNcISaJ0vnPyJBqndXkR/view

Software Proficiency in Java:

- Technically advance java developer with experience in designing and developing Java/J2ee web-based application.
- Offering strong expertise in Spring boot, hibernate JPA and web service.
- Developed highly interactive user interface using SP and JSTL tags.
- Installing MySQL database and creating Database schema.
- Integrating required APIs in the application.
- Adding functionalities to the existing application.
- Experience in developing application using micro services (restful)
- Performing form validations.
- Creating controllers in spring boot projects.

Java Developer

Name: Thimmeswarnaidu M   **Phone No:**9704884852   **Email:**Thimmeswarnaidu1107@gmail.com

- Creating repositories in Spring boot projects.
- Creating dto layer in Spring boot projects.
- Creating service Imp layer in Spring boot projects.
- Developing entity class with encapsulation concept.
- Configuring email sending services.
- Experience in developing application using MVC architecture.
- Testing web services using POSTMAN.
- Excellent knowledge of JDBC, HTML, CSS, SQL.
- Excellent knowledge of creating Servlets.
- Proficient in Java programming language fundamentals, including object -oriented programming concepts
- Experienced in utilizing Java threads for concurrent programming tasks, including synchronization and communication between threads
- Solid understanding of the Java Collections framework, including Array Lists, LinkedList, HashMap, and other data structures
- Skilled in implementing algorithms and data structures using Java Collections for efficient data manipulation and storage
- Familiarity with multithreading concepts such as thread creation, thread scheduling, and thread synchronization
- Hands-on experience with Java concurrency utilities like Executors, Futures, and Locks for managing concurrent access to shared resources
- Capable of optimizing code performance by employing appropriate data structures from the Java Collections framework

IT Skills:

- **Programming Languages:** Core Java
- **Web Technologies:** JSP, HTML, Servlets
- **Framework:** Spring Boot, Spring MVC
- **ORM:** Hibernate
- **API Development:** Rest API
- **Micro services:** Micro Service Architecture
- **Integration:** Third-Party API Integration
  Version Control: Git & GitHub
- **Security:** Spring Security
- **Database languages:** MYSQL, MONGODB

Project-Description:

- ❖ **Name:** Healthcare Appointment Scheduling Platform

- ❖ **Description:** Developed and implemented the Healthcare project, a comprehensive Healthcare Appointment Scheduling Platform designed to streamline the process of scheduling medical appointments, enhance communication between healthcare providers and patients, and ensure a secure and efficient user experience. Prioritize bugs and plan on working the prioritized tasks with the team.

Java Developer

Name: Thimmeswarnaidu M   **Phone No:**9704884852   **Email:**Thimmeswarnaidu1107@gmail.com

Technologies Used in my project:
- Spring Boot
- Hibernate
- MySQL Database
- Mongo Database
- Spring Security
- REST API
- Postman for API testing
- Integrated payment gateway for transactions
